8. Water Impoundments	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9. Soils	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
10. Revegetation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
11. Air Quality	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12. Other	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Purpose of Inspection:

To determine the status of the mine and see if the site was being maintained.

Directions to Site:

West of Levan, Utah

Inspection Summary:

The Chicken Creek East mine was not currently active and the Chicken Creek West was being disturbed to set up a crusher. The East Mine was not permitted under the existing Large Mine permit, therefore it was communicated to the workers on site that this was the case and until the county road was upgraded and the site was permitted under the large Mine they were not allowed to operate. They stated they were not mining but merely upgrading the pad for the crusher to be set up.

Conclusions and Recommendations:

I called Mr. Christofferson and informed him East mine was not permitted until the Large Mine was approved for this area and the road upgraded. He said he would stop all work in the area and also stated he needed this site permitted as quickly as possible. Susan White and myself called Mr. Christofferson and told him that he needed to upgrade his permit so that all the necessary information on private land was included. We could then permit the private land portion but not the Forest Service lands until the Forest Service could complete the EA. We also informed him that the Forest Service needs help completing the EA and they should consider working with the Forest Service to hire a consultant to finish the process.
